## WHO WE ARE

### Keeping citizens at the heart of public service delivery

eGov Foundation is a philanthropic mission that works towards making the lives of every citizen better. It includes transforming the public health infrastructure, creating a sanitation value chain, improving the public finance management, tackling climate change; all with the power of open digital infrastructure and ecosystems.

**The goal** is to put people first, by enabling the state to deliver services that are accessible, affordable, and inclusive, thus **bringing the government closer to the citizens.**

EN
